

2000

"Quantum Chemical Study on the Reaction between GeF₄ and Si₂H₆," K. Sakata and A. Tachibana, *Chemical Physics Letters*, **320**, 527-534 (2000).

"Quantum Chemical Study of Aluminum CVD Reaction for Titanium Nitride (111) Surface with Terminal Fluorine," A. Tachibana and K. Nakamura, *J. Mol. Structure (Theochem)*, **506**, 273-286 (2000).

"Static Electronic Properties on Various Surface Orientations of Al Crystal Undergoing Electromigration," K. Iguchi and A. Tachibana, *Applied Surface Science*, **159/160**, 167-173 (2000).

"Quantum Chemical Mechanism in Parasitic Reaction of AlGa_N Alloys Formation," O. Makino, K. Nakamura, A. Tachibana, H. Tokunaga, N. Akutsu, and K. Matsumoto, *Applied Surface Science*, **159/160**, 374-379 (2000).

"Quantum Chemical Mechanism of Oxidation of the Hydrogen-Terminated Si Surface by Oxygen Anion," K. Sakata, T. Sato, K. Nakamura, A. Osamura, and A. Tachibana, *Applied Surface Science*, **159/160**, 392-397 (2000).

"Quantum Chemical Study of Etching Reaction of Fluorine Atoms and Ions into Hydrogen-Terminated Si(111) Thin Film," O. Makino, K. Sakata, H. Yamazaki, K. Iguchi, and A. Tachibana, *Thin Solid Films*, **374**, 143-149 (2000).

"Quantum Chemical Study of Parasitic Reaction in III-V Nitride Semiconductor Crystal Growth," K. Nakamura, O. Makino, A. Tachibana, and K. Matsumoto, *J. Organomet. Chem.*, **611**, 514-524 (2000).

"Regional Density Functional Theory for Parasitic Reaction in III-V Nitride Semiconductor Crystal Growth," K. Nakamura, A. Tachibana, and K. Matsumoto, *IPAP Conf. Series (Proc. Int. Workshop on Nitride Semiconductors)* **1**, 97-100 (2000).

"Regional Density Functional Theory for Crystal Growth in GaN," K. Nakamura, T. Hayashi, A. Tachibana, and K. Matsumoto, *Journal of Crystal Growth*, **221**, 765-771 (2000).
