"Field Energy Density in Chemical Reaction Systems," A. Tachibana, in *Fundamental Perspectives in Quantum Chemistry: A Tribute to the Memory of Per-Olov Löwdin*, Eds. by Erkki Brändas and Eugene Kryachko (Kluwer Academic Publishers, Dordrecht, 2003), pp. 211-239.

"Wavepacket dynamics and quantum mechanical energy densities in the quartet  $N_2^+ + O_2$  system," K. Hasegawa, K. Doi, K. Nakamura, and A. Tachibana, *Mol. Phys.*, **101**, 295-307 (2003).

"Structures and electronic properties of aluminum nanowires," Toshiki Makita, Kentaro Doi, Koichi Nakamura, and Akitomo Tachibana, *J. Chem. Phys.*, **119**, 538-546 (2003).

"First-principle dynamical electronic characteristics of Al electromigration in the bulk, surface, and grain boundary," K. Doi, K. Iguchi, K. Nakamura, and A. Tachibana, *Phys. Rev. B*, **67**, 115124-1-14 (2003).

" Theoretical study on the initial processes of nitridation of silicon thin film," Seiichi Yoshida, Kentaro Doi, Koichi Nakamura, and Akitomo Tachibana, *Applied Surface Science*, **216**, 141-148 (2003).

" First-principle theoretical study on the electronic properties of  $SiO_2$  models with hydrogenated impurities and charges," Kentaro Doi, Koichi Nakamura, and Akitomo Tachibana, *Applied Surface Science*, **216**, 463-470 (2003).

"Quantum Chemical Mechanism of Heterogeneous Reaction between Trichlorosilane and Adsorbed Water," Toshiki Makita, Koichi Nakamura, Akitomo Tachibana, Hiroshi Masusaki, Koh Matsumoto, and Yoshio Ishihara, *Jpn. J. Appl. Phys.*, **42**, 4540-4541 (2003).

"First-Principle Study on the Reactions and Dynamical Electronic Characteristics of Electromigration on Aluminum Nanowires," Yoshihiko Kawakami, Takaharu Kikura, Kentaro Doi, Koichi Nakamura, and Akitomo Tachibana, *Materials Science Forum*, **426-432**, 2399-2404 (2003).

"First-principle study on the structures and electronic properties of gallium nitride nanowires," Yoshihiko Kawakami, Nobuyuki Higashimaki, Kentaro Doi, Koichi Nakamura, and Akitomo Tachibana, *phys. stat. sol. (c)* **01**, No. 7, 2318-2322 (2003).
