

2014

- [1] Masato Senami, Soujiro Takada, and Akitomo Tachibana
“Description of Photon Field in Dynamics Simulation of Bound States Based on Quantum Field Theory”,
JPS Conference Proceedings 1, 016014(5), (2014)
[10.7566/JPSCP.1.016014](https://doi.org/10.7566/JPSCP.1.016014)
- [2] Akitomo Tachibana
“Stress Tensor of Electron as Energy Density with Spin Vorticity”,
J. Comput. Chem. Jpn., Vol.13, No.1, 18-31 (2014)
[10.2477/jccj.2013-0012](https://doi.org/10.2477/jccj.2013-0012)
- [3] Masato Senami, Masahiro Fukuda, Yoji Ogiso, Akitomo Tachibana
“Torque for electron spin induced by electron permanent electric dipole moment”,
AIP Conference Proceedings 1618, 954-957 (2014)
[10.1063/1.4897891](https://doi.org/10.1063/1.4897891)
- [4] Masahiro Fukuda, Masato Senami, Yoji Ogiso, Akitomo Tachibana
“Local spin torque induced by electron electric dipole moment in the YbF molecule”,
AIP Conference Proceedings 1618, 958-962 (2014)
[10.1063/1.4897892](https://doi.org/10.1063/1.4897892)
- [5] Kazuhide Ichikawa, Hiroo Nozaki and Akitomo Tachibana,
“Use of Electronic Stress Tensor Density and Energy Density in Chemistry”,
Proceedings for THERMEC’ 2013
Materials Science Forum Vols. 783-786 (2014) 2207-2212
doi:10.4028/www.scientific.net/MSF.783-786.2207
- [6] Akitomo Tachibana
“Electronic stress tensor of chemical bond”,
Indian J. Chem. 53A, 1031-1035 (2014).
Special Issue on Chemical Reactivity Theory
Guest Editor: Prof. Pratim Kumar Chattaraj
NISCAIR Online Periodicals Repository (NOPR) at
http://www.niscair.res.in/sciencecommunication/researchjournals/rejour/ijca/ijca2k14/ijca_aug_sep14.asp

[7] Kazuhide Ichikawa, Masahiro Fukuda and Akitomo Tachibana,
“Study of Simulation Method of Time Evolution of Atomic and Molecular Systems by Quantum Electrodynamics”,
International Journal of Quantum Chemistry, 114, 1567-1580 (2014)
DOI: 10.1002/qua.24726
